A pleasure to own

www.vwT25camper.info - a useful website for owners and enthusiasts of VW T25 / T3 Campervans

VOLKSWAGEN

TRAVELLING

All seats face forward for comfort, and less travel sickness. Cab seats, as well as the two rear settees are all upholstered to match.

Even with six or seven passengers spread out there is still room for the dog, or extra luggage on the engine deck.

On very long journeys you can make up the double bed (so that children can sleep) and still have four forward facing seats.

COOKING

The two burner cooker, with grill is housed in a delightful oak cabinet, and when not in use, swings up – completely out of the way – only taking up 9" of valuable space.

Next to the cooker unit there is a deep top loading unit for additional storage, and also a cupboard accessible from the tailgate for carrying extra Gaz bottles.

DINING

The matching table, mounted on a central leg fits between the two settees. Simply reverse the centre settee back rest and you have a spacious dining area. All the unit tops, and table are lipped to stop crockery sliding off.

and DANBURY

WASHING

The tip-up sink, with pumped water supply, drains away when you close it. Housed in a matching oak cabinet it again takes up the minimum amount of space.

Alongside the sink unit there is another deep top loading cupboard for storage and a further compartment for carrying those messy wellies!

SLEEPING

The rear settee slides forward and the back rest reclines to meet up with a cushion on the engine deck, giving a good size 6' long double bed. You can even extend the rear settee to meet the centre seat and sleep a child across the foot of the bed.

On the off-side of the vehicle there is a very deep cupboard for hanging clothes and storing sleeping bags, pillows, etc.

OPTIONAL EXTRAS

For extra headroom, and another double bed, you can if you wish, have an elevating roof fitted.

This full length, side hinged roof, offers another fully upholstered double bed, and still only adds 5" to the overall height of the vehicle when closed. – So your vehicle is still under 7'.

We also offer, as an extra, a mini fridge/food warmer, with cigar lighter and second battery. This fridge is completely portable and so safe. Running only off electric so you don't have to leave the Gaz on all night.

VOLKSWAGEN and Danbury

THE PERFECT TEAM

We at Danbury have designed for you a versatile, simple, conversion giving maximum benefit as an estate car, comfortable camping facilities, and the ability to remove both rear settees when you want to help with any heavy load carrying. Hence you can have a car, caravan, and delivery van, all for the same price wrapped in an attractive vehicle which you will be as proud to own as we are to produce it for you.

We believe we have thought of most things, – but still left room for you to adapt your Danbury to your own style.

However, no brochure can tell you everything, so please write or telephone for a free demonstration at your home – we'd be delighted to meet you.
