

a sparkling new experience

 danbury
Diamond

style, flair, imagination, craftsmanship

Danbury proudly present their sparkling new Diamond. A new motor caravan experience built around the universally acclaimed Volkswagen leisure vehicle. Handling, road holding, ride, equipment, styling, aerodynamics, safety and comfort are the key features of the Volkswagen Danbury Diamond. In fact, it feels like, and drives like, a car.

More living space, more luxurious comfort.

A great deal has gone into creating the Danbury Diamond. The interior is tasteful, practical and hard wearing. Standard fittings include an 'eye-level' grill, an Electrolux refrigerator and the latest Italian cooker and sink, which are stove enamelled in subtle colours. These complement the attractive cabinets and wardrobe which are finished with hardwood edges - so they stay attractive.

More quality.

Seats have adjustable backrests and are strongly secured and include seat-belt anchorage points throughout. With the greatest of ease, a full size double bed can be made. To add to the final touch the flooring is covered with both a removable piled carpet and a practical wipe-clean vinyl covering. The Danbury Diamond plus Volkswagen engineering, is fully explained in our new 12 page full colour brochure.

Just fill in the coupon and it will be our pleasure to send you our brochure and the name of your VW Distributor.
