

The new Danbury. The one with the 'all-electric' elevating roof.

The new Danbury Volkswagen Series II is quite a vehicle. It's full of modern technology to take you into the 1980's. And the fabulous AUTOROOF . . . a fully automatic electric elevating roof takes the hard work out of camping.

The new Danbury is a luxury family pad. Six of you can sit facing forward so you can use the Danbury for 52 weeks of the year. Home from home cooking . . . Clunk, click and you're cooking and serving four of the family, in the dinette area.

**The new Danbury.
now you're really living.**

Please send me full details
of the New Danbury
Volkswagen Series II

Name

Address

M C M M . 5

Sensibly placed service unit gives quick access to stainless steel sink and 35 litre capacity top loading refrigerator. Mains inlet, charge and distribution unit, water containers and pump and T.V. socket are handy, too. At the end of the day there are no less than two full size double beds, foam filled for a restful night. One of the beds is in the roof . . . *the roof that goes up and down at the touch of a switch.*
